CGPA: 6.2

Skills

Programming Languages:	C, C++, Python, SQl, PHP
Tools / Platforms:	VS Code, PyCharm, Anaconda Navigator, Dec C++, Auto CAD, Ansys, MatLab, Xamp, Apache

Projects / Open-Source

Snake Game | Link — *Java*

Code Compiled and Executed in Apache Netbean 12.0.2 and java mysql connector 8.0.4 on a Windows Device.

The length of the snake increases by eating the food, if the snake touches the corners or itself then the game is over. There are food of two colors the red food gives only 1 point while the blue one gives 3 points. The highscores are recorded in the database anddisplayed accordingly. The program uses Key Events to navigate the snake

Library Management System | Link — *Python, PHP*
